

## **MONEY WHEEL**

Money Wheel is a very simple, super fun and fast-paced casino game. The Money Wheel is divided into 52 sections, with each section represented by a symbol that matches the symbols on the layout. The odds for the sections are displayed on the wheel and on the table, ranging from Even Money to 47-1. The wheel is spun by the Dealer and if the indicator lands on the symbol you placed a bet on, you win.

In Okada Manila, Players are welcome to spin the wheel!
